

# Atomic Polls

Unleash the power of instant feedback and increase student engagement with Atomic Polls.

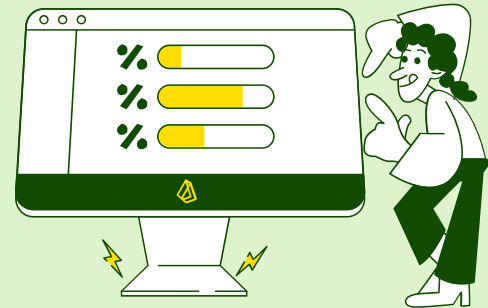

## Meet Atomic Polls

Electrify your LMS and boost student engagement by adding in-page polls. Easily embed polls into page content anywhere there is a rich content editor. Create, preview, and modify polls and view results within your LMS.

## Customize and Configure

- Limit access so only teachers see results
- Restrict time frame for response submission
- Selection types include: ranking, single, and multiple
- Create multi-question polls
- Anonymize student responses
- Require students to write an explanation
- Display live results and feedback messages
- Copy polls between courses

## Results and Reporting

Empower faculty and staff with instant and actionable data:

- View detailed results immediately
- Aggregate data from multiple courses
- Access individual participant data
- Download poll submissions
- Reset responses
- Export results to a .CSV file

Atomic Polls is currently available in Canvas LMS and coming soon to Brightspace, Blackboard Learn and Moodle.
