

Overview

- Increase engagement with in-page polls that allow students to see results immediately.
- Insert polls into page content using the Canvas Rich Content Editor.
- Create multi-question polls.
- Ranking, single and multiple selection types.
- Copy polls between courses.
- Display live results.
- Reset poll results to reuse a poll.
- Create, preview, and edit polls and view results in Canvas.

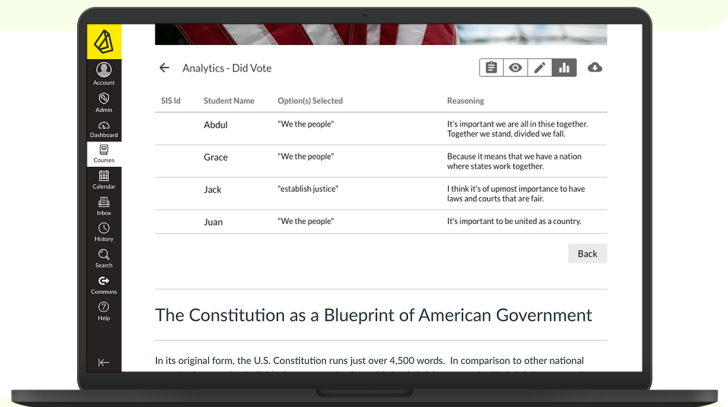

Configurable

- Configure polls so that only teachers see results.
- Limit responses to a time period.
- Anonymize student responses.
- Require students to write an explanation.
- Display feedback messages after students respond.

Reports

- View who responded to the poll and what their response was.
- Download poll submissions.
- Aggregate results from multiple courses.
